

<b><i>Spring grasslands in the nursery yard</i></b>	
<b>AGE RANGE</b>	3-4 y. o.
<b>Activity for...</b>	Group with robot
<b>Author</b>	Panevezio r. Naujamiescio kindergarten "Bitute", Lithuania
<b>DURATION / TIMING:</b>	20-25min.
<b>REQUIRED MATERIALS:</b>	Robot and mat, cards with photos of plants.
<b>PREPARATION OF THE ENVIRONMENT:</b>	Room for 5 children. It is essential to have a calm environment so that no one is distracted.
<b>DETAILED DESCRIPTION:</b> How the activity is implemented?	<p>They will tell you which plants on the mat you know, will name them correctly.</p> <p>Each child will choose their favourite plant.</p> <p>I will count with friends how many boxes the robot will need to travel to the box of its choice.</p> <p>Will discuss how many and which buttons will be pressed by the robot.</p> <p>Perform the action until the robot moves to the desired plant.</p>
<b>ROLES of the CHILDREN</b>	Take turns performing tasks, talking and helping each other.
<b>ROLE of the TEACHER:</b>	The teacher tells the tasks, helps, monitors and evaluates who performed the tasks faster and more correctly.
<b>EXTRA RESOURCES</b>	-
<b>Other remarks / Hints for the implementation</b>	We believe that individually or in a small group, a child can concentrate better and perform tasks correctly.
