Plastic Waste

*Waste pictures are prepared with the same color frame as the waste bin they will be dropped in. For example; the edges of glass wastes are framed with green cardboard, the edges of paper wastes are framed with blue cardboard and the edges of plastic wastes are framed with yellow cardboard.

Recycling Waste Bins

**PREPARATION OF
THE
ENVIRONMENT:**

Conversation is made with the child about which waste is recyclable. It is discussed why this waste should be recycled and what effects it has on our nature and our world. Banners related to recycling are examined from the smart board. The materials to be used during the activity are brought to the environment. They are placed on the table and the boards are hung where children can reach them.

**DETAILED
DESCRIPTION:
How the activity is
implemented?**

The teacher brings the recycling waste bins that he/she hangs on the hook and loop board and guides the child to examine them. He/she then places the box with pictures of recyclable wastes in the middle. Child does the activity of collecting the waste pictures and throwing them into the relevant waste bin with their task cards. For example, if the child chooses the blue card collects the paper wastes and throws them into the blue waste bin. If the child chooses the green task card finds the glass waste pictures and throws them into the green waste bin. If the child receives the yellow task

card finds the plastic waste pictures and throws them into the yellow waste bin. (The pictures with the waste were previously pasted on the cardboard of the same color as the waste bin.)

1. The child chooses the task card

2. He/she finds the pictures related to the card

3. He/she throws it into the relevant waste bin

ROLES of the CHILDREN

Collecting the same type of wastes and throwing them into the relevant recycling waste bin. They make suggestions to the player in cases that are not correct.

ROLE of the

The teacher acts as a guide. He/she guides the child through the matching game.
